

Petition Signature Guidelines

Every qualified elector signing a petition must do so in the presence of the person who is circulating the petition (i.e., the circulator must personally witness each collected signature).

Who can circulate petitions?

Any person who is qualified to register to vote in Arizona may circulate petitions.

If you are a resident of another state, you can register with the Arizona Secretary of State prior to circulating and receive a circulator ID number. Contact us at info@outlawdirtymoney.com or 602-633-5146 if you need more information.

Who can sign a petition?

Petition signers must be registered to vote in Arizona and at least 18 years old on the date of signing.

Before you begin, fill just three (3) lines on the petition packet:

- Check the “Volunteer” box in the top right corner of the petition.
- Write in the County in which the signers reside, two-times.

Note: Don't fill anything else out until you are ready to turn in your petition and have it notarized.

As people are signing, pay attention so you can guide them

- They must sign in the first box and print the other information clearly in black or blue ink.
- Remind the signer to use their full name as they are registered to vote and the address where they are registered to vote.
- The signer should fill in all fields: Signature, printed first and last name, address where they are registered to vote and date signed.
- Make sure they get the date correct – if they put down a date that is out of order, it may get the signature tossed. (You would be surprised how often signers put the wrong year!)
- **Encourage signers to keep their signature and all handwriting in the box** – alert them to this prior to signing.
- If they mess up, ask them to neatly cross it out, initial, and correct the error.
- **Important. All signers must be registered in the same county.** If someone from a different county signs, please start a new petition for that county. If someone signs a petition for the wrong county, ask them to cross out their name and then sign a petition for their county.

DO NOT

- Separate the petition from the ballot language - they **MUST** remain stapled together.
- Allow an individual to sign the same petition twice.
- Allow a second signer in a household to use ditto marks – they must write out all information.
- Sign for the individual or allow any other person to sign the petition on that individual's behalf unless in the presence of (and at the request of) an individual who is incapable of signing or printing their own name because of physical infirmity.
- PO Boxes are not allowed – the signer should use the address where they are registered.
- Do not scribble in the margin or anywhere on the petition.

When you have completed your packet

- Before you see a notary, neatly print on the back of the petition, your name as registered to vote, your county and your complete street address (city, state, and zip code) – PO Boxes not allowed.
- The other fields are for the notary – do not write in these sections.
- In front of the notary public you will show them your ID and sign your name – most banks have a free notary service.
- **Don't sign until you are in front of the notary**
